

Janet Finch-Saunders AM

Assembly Member for Aberconwy

STANDING UP FOR RURAL WALES

“The Welsh Government should appreciate that we need a place at the Cabinet table for a Minister for rural affairs as a full portfolio. Only then will we be able to see substantial action and deeds, rather than the mere lip service that this Government pays to rural communities. – Janet Finch-Saunders AM”^{GTS2012}

Janet and the Welsh Conservatives have called on the Welsh Government to:

- Promote the provision of Broadband in Rural Areas
- Simplify Glastir & Reduce Regulation
- Appoint a Full Minister for Agriculture at Cabinet
- Support Family Farming
- Allow Communities to take-over Community Assets
- Protect Direct Payments
- Localise Planning Policy and Keep Decisions Local
- Work in Partnership with Farming Unions

“Farming is primarily a business venture, albeit a unique category of business. The Welsh Government needs to better recognise this fact in the substance of its agricultural policies.” – Janet Finch-Saunders

AM (7th February 2012; Working Smarter Debate).
